

D. D. D. Opens New Era in Cure of Skin Disease

Professor Budlong's case of eczema was known to almost every hospital and physician of reputation throughout the state of Connecticut. His letter is another interesting demonstration of what is being accomplished by the famous specific D. D. D. Prescription. "It may be of interest to you to know that your life-saving preparation, D. D. D. Prescription has been of incalculable value to me. I was covered with eczema from head to foot when I began using your remedies. I could get no relief, although I tried a thousand means. I applied but two bottles of the Prescription; a cure was effected in a very short time, in less than one month."—Prof. C. J. Budlong, South Lyme, Conn.

Ask any druggist today for D. D. D. Prescription. He'll tell you it allays the itch instantly—and soon there are signs of cure.

We have handled the remedy for years and regard it as the specific for skin troubles of all kinds. Come in or ask us about D. D. D. Prescription, also about D. D. D. soap especially for tender skins.

We offer the first full size bottle on the guarantee that unless it stops the itch at once, it costs you not a cent.

WOODEN SHOES

Made in United States And Are Worn By Many.

In this country beech is the favorite material for wooden shoes, the manufacture of which has reached considerable proportions in the United States, according to the department of agriculture, which has just issued a bulletin on the use of the wood. These shoes, the department says, costs from 60 to 75 cents a pair and are good for two years. They are worn by those who have to work in cold or wet places, such as tanneries, breweries and livery stables, and by workmen in steel mills and glass factories who must walk on hot grates or floors. Farmers, too, are classed among the users.

Beech wood is put to a very much wider range of uses than the average person would be likely to suspect. The department says beech enters into hundreds of articles from hobby-horse rockers to butchers' blocks. We walk on beech floors, eat off beech picnic plates, carry beech baskets, play with beech toys, sit on beech chairs, and in dozens of other ways use articles made of beech all over every day of our lives. Its freedom from taste fits the wood especially for articles which come in contact with foodstuffs, and beech meat boards, skewers, lard tubs, butter boxes, sugar hogsheds, refrigerators, dishes, spoons and scoops are widely used.

Only one species of beech grows naturally in the United States, but few trees in this country have a wider commercial range. It extends from the Gulf of Mexico into Eastern Canada, and in practically every place where it is cut for market. The total yearly output of beech wood in the United States is approximately 500 million board feet.

MODESTY AND COMFORT.

Will Be Recognized in the Latest Fashions for Men and Women.

Here is a message of cheer for the men and women who follow, but nevertheless are "fagin" the naughty slinging modes of present fashions. Models at two style shows displayed skirts that will not show knees when stairs are mounted, and sack suits that do not have to be put on with a shape horn.

The designers gave out the glad-some news that comfortable clothes, likewise modest ones, are surely coming back in fashion's favor.

Freaks were also shown—there were many of them—and a tango dancing suit and gorgeous motor coat in the men's section vied for comment with M. Poiret's "lampshade" or the butterfly gowns, in the woman's exhibit.

Concerning men's styles Frank T. Brown, Vice President of the tailors' organization, of Chicago, said: "We are going to ease up a bit on these tight narrow modes. The extreme, for the present, will be the tight coat and tight trousers, but the days of that style are numbered."

"Fancy waist coats, out for five years, are coming back, and they will be cut lower to make room for the new large ties. Stripes are dying and highly colored rough goods, in green mixtures, checks and plaids, are arriving. Evening clothes must now be in colors, chiefly grays and dark greens."

"All is Well that Ends Well"

Along with dyspepsia comes nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not hard work that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—consumption. Fortify the body now with

A NEW TELEPHONE DIRECTORY.

Manager H. H. Floyd, of the Paris Exchange of the Cumberland Telephone & Telegraph Company, announces that the new telephone directory will soon be issued.

The new list will be corrected up to November 1st, and he states that all those who wish to make changes in their listings, or to have their names placed in the new directory, should communicate with him at once.

Those who are contemplating installing telephones in their homes or offices should act promptly in order that their names may appear properly in the new directory.

Manager Floyd states that there will be a number of new names added to the list and that the growth of the exchange here is a strong indication of the progress of Paris.
